

Automated Laboratory for Photonic Systems

We (the group of [Samuel Gyger](#)) work on optical quantum technology and the automation of the experimental process and are located at University of Saarland, Germany. You can find out more about us on our [official website](#).

This wiki contains information useful to our lab and research and it is only accessible with a user account, to help you get started we created [this Document](#).

Sections of the wiki

Equipment	Equipment belonging to the group
Lab	Information about the ALPS lab.
NanoLab	Information on the Clean-room equipment and recipes
UdS	Information how to navigate University of Saarland
Members	Members (present and past) of the group
Collaborators	Shipping addresses, contact information
Plans	Equipment to buy, experiments to conduct, setups to build
Results	Samples, measurements and published research
Wiki	Templates, explanations, ...
